1. FORWARD

NOTE: These records are based on statistics compiled by David Mislan in his capacity as Soo Greyhound statistician. They have been collected since the 1975/76 season and are based on OHL game sheets. Statistics may not always agree with official OHL records for various reasons, but are very close and are the most accurate records available.

Statistics for 1972/73 through 1974/75 are based on Sault Star season summaries and are lacking in detail and accuracy. They are included in team records as no other source is available.

Scoring statistics for individual players include only statistics for games played as a member of the Soo Greyhounds. This affects players obtained during the season via trades.
